

## ANIMAL HEALTH WORKSHOP

Monday, 9<sup>th</sup> February 2026, 3pm - 5:30pm

Dunedoo Sports Club, 61 Wargundy St, Dunedoo NSW

**Dr Tim Elliott:** Tim's expertise is parasitology and has extensive experience in managing resistance by developing integrated parasite management programs to promote production and profitability. Tim has also undertaken extensive work in the New England assisting producers to implement practical programs that promote the sustainability of running sheep in the region.

**Emily King:** The role of AWI is to make strategically targeted investments to enhance the profitability, international competitiveness and sustainability of the Australian Wool Industry. Emily King will update local wool producers on some of these projects and how AWI is working towards securing wool production now and into the future.

### Dr Tim Elliott, Dip.Lab Tech, BTech, PhD (Parasitology)

- Managing worms throughout pregnancy
- How best to prepare lambing paddocks
- Worm management pre-lambing to limit production losses throughout lambing
- Tips and tricks to managing resistance on farm

### Emily King, AWI National Extension Manager

- Market intelligence and global opportunities
- On farm and off farm projects
- AWI extension and how it improves efficiency and farm profitability
- Q&A session

RSVP by Friday 6<sup>th</sup> February 2026 - Delta Dunedoo 02 6375 1209
